

Health & Safety in the Workplace

Awarding Body CIEH

Levels: Level 3 Award

This qualification provides a thorough understanding of health and safety emphasising the importance of monitoring staff and controls. It also details the need for a structured management approach to health and safety and the key factors in implementing health and safety policies.

Who needs this qualification?

Everyone working in a supervisory position in any company within the UK.

Why is this training important?

Accident and illness can result in disability, death or incapacity for work. The supervisor is an ideal position to influence, monitor and train employees. They can also ensure that managers are informed, persuaded, encouraged or pressured into providing better health and safety standards.

Learning Outcomes

- Demonstrate an understanding of the main concepts of health and safety
- Show awareness of the benefits of health and safety
- Explain the roles and responsibilities of individuals, supervisors and management in health and safety
- Demonstrate an understanding of health and safety controls and improvement strategies available to supervisors
